Cleaners

- A Mild soap such as Joy, Dove, Ivory or other hand-dishwashing liquids and water. Use a clean cloth or soft sponge to dab the stain with soapy water. Remove the soap solution by wiping the area with a cloth and clean water. Dry with a soft lint-free cloth or towel.
- B Mild petroleum solvent such as naphtha (lighter-fluid) or mineral spirits (paint thinner). Lightly wipe the stain with a clean cloth that has been moistened with solvent. Blot the stain and allow to dry.
- C One part Wisk detergent and one part rubbing alcohol. Dab lightly with a cloth that has been moistened with the solution. Do not rub. As the ink loosens, blot the area with a dry cloth. Repeat if necessary. Rinse with a cloth dampened in clean water and dry with a soft cloth.
